

Wedding Day Coordination

FULL DAY

This package is for you when things start feeling a bit too much and your wedding plans now involve a large venue or big guest list with a multitude of details, too many suppliers to keep track of, or a private property / DIY Venue or venues with limited venue support on the wedding day.

From brainstorming and understanding your vision, goal and already booked suppliers to execution, our full-day wedding coordination package is your perfect solution. With 8 dedicated service hours on your wedding day, we've got the essential hours covered. Building upon what the half-day package provides, this comprehensive option offers a touch more, including attending your ceremony rehearsal, additional pre-wedding consultations, and more. We can ensure a seamlessly orchestrated wedding day that lets you enjoy every minute of it.
